WORK EXPERIENCE

- **Apptware - React JS Developer** - [Apptware](#)

Duration -

Feb 2022 - Present

- Collaborated with a team of React Developers to resolve bugs on projects.
- Worked with typescript files and developed features using React Hooks and functional programming.
- Worked on Integrating Payment gateways using GPay, Paytm, PayU APIs. Developed POCs to be used on further projects

- **Samtej Industries LLP - Front-End Web Developer** - [Samtej Industries](#)

Duration -

November 2021 - December 2021

- Converted low fidelity designs to front-ends.
- Developed a static React JS website that helped bring the business online so users could browse through the various products the company offers.

PROJECTS

- **Redux Authentication System** - <https://redux-form-one.vercel.app>

- Designed an Authentication System that stores user sign-up and sign-in information in the central redux store and cross-checks the credentials with the sign-up state every time a user logs in.
- Added MD5 Hashing to secure the passwords.

- **MERN Stack Blog**

- Integrated an Express Backend to perform CRUD operations on the MongoDB database.
- Implemented user sign up / sign in and stored the credentials in a MongoDB collection
- Configured backend to use MD5 Hashing to hash the user's passwords.

- **React Lusion Clone** - <https://tailwind-lusion.vercel.app>

- Emulated a website called Lusion using React JS and Tailwind CSS.
- Implemented Cart Functionality using Redux.

- Integrated a payment gateway using Stripe API.

LEADERSHIP EXPERIENCE

ISTE MMCOE - [Indian Society for Technical Education](#)

Pune

- **Content Writer**

Sept 2019 - Present

- Published content for Instagram posts and researched topics about technological advancements, programming languages, business, etc.

- **Technical Consultant**

July 2021 - Present

- Organized national level events at ISTE MMCOE such as HackSprint 2.0, FACE, Chimera-X, and various other webinars aimed toward converting innovative topics that professionally benefit students.
- Converted Figma wireframes into front-ends for the ISTE website
